1. Comment. [redacted] eight trains went to Quedlinburg from Stendal, Jachnitz and Hardsleben during the period from 3 to 6 October 1952. [redacted] Kasernierte VP (KVPD) was transferred from Quedlinburg during the period from 6 to 10 September. [redacted] 50X1-HUM  
 At that time, it was believed that the cadre unit in Quedlinburg was transferred to Dessau-Kochstedt [redacted] 50X1-HUM  
 Elements of this unit, however, have gone to the area of Torgelow. Soviet troops were probably quartered in Quedlinburg. The dispatching stations mentioned does not allow definite identification of the troops involved. [redacted]  
 [redacted] the unit mentioned possibly is a mechanized regiment of the 19th Gds Mecz Div. The traffic seen in the border area of Ilseburg-Benneckenstein is simultaneously with the exchange of border guard units.
2. Comment. [redacted] 50X1-HUM  
 [redacted]  
 [redacted] 4 trains went from Lohburg to Brandenburg on 18 October. [redacted] The referenced report also indicated the entrainment in Leipzig during the period stated. Some of the troops who had participated in the fall maneuvers of the Eighth Gds Army were shipped back from Leipzig.
3. Comment. A previous report indicated that probably units of the 19th Gds Mecz Regt of the 1st Mecz Div departed from Neustrelitz, presumably for field exercises. [redacted] The arrival of recruits from Neustrelitz for the 1st Mecz Div is known from previous reports as is the departure of soldiers who [redacted] numbered about 200 50X1-HUM  
 during the period from 14 to 21 October. The Loewen Kaserne had been reported [redacted] 50X1-HUM  
 as occupied by only about 700 soldiers on 21 October. 50X1-HUM
